REMARKS

The figures of births and deaths shown in this statement for week ending the 31st December, 1955, relate to 195 towns with an estimated population of 27,838 thousands. The total number of towns is 313 and their population is 40,934 thousands. Thus 62% of the total number of towns representing 68% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 19,023 and 6,654 representing birth and death rates of 35.5 and 12.4 per thousand of population respectively.

(a) *States (Part A and Part C).*—The data here relate to 159 towns with an estimated population of 23,141 thousands. Information about Ajmer, Assam, Madhya Pradesh, Madras and Orissa could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 63% of the total number of towns representing 71% of the

total population is covered. The number of births and deaths recorded in these towns were 16,479 and 5,663 representing birth rates and death rates of 37.0 and 12.7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B).*—The data here relate to 36 towns with an estimated population of 4,697 thousands. The total number of towns is 61 and their population is 8,362 thousands. Thus 59% of the total number of towns representing 56% of the total population is covered. The number of births and deaths recorded in these towns were 2,544 and 991 representing birth and death rates of 28.1 and 11.0 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
